

**IN THE SPECIFICATION:**

**Please amend Page 25, lines 19-23, so as to read as follows:**

Also, ~~Since~~ since the thickness of the first nozzle layer and the thickness of the second nozzle layer are reduced, the sizes of the first and second nozzle holes are reduced. This makes it possible to increase the concentration of the first nozzle holes, and improve the resolution of the drawn image.

**Please amend Page 114, lines 3-15, so as to read as follows:**

The nozzle hole 11, which penetrates the repellent film 4, the discharge layer 14, ~~the first nozzle layer 14~~, the first nozzle layer 1 and the second nozzle layer 2, includes a first nozzle hole 11a and a second nozzle hole 11b. The first nozzle hole 11a is a penetrating part that penetrates the liquid repellent film 4, the discharge layer 14, and the first nozzle layer 1. The second nozzle hole 11b is a penetrating part that penetrates the second nozzle layer 2. Further, the first nozzle hole 11a includes the discharge opening 11c and a first nozzle hole part 11d. The discharge opening 11c is a penetrating part that penetrates the liquid repellent film 4 and the discharge layer 14. The first nozzle hole part 11d is a penetrating part that penetrates the first nozzle layer 1.
